The 'Lune d'édén' Solitaire Collection

February 2010

As **unique** as a marriage proposal, a white elephant symbolises **the strength and individuality of an amorous union**. Through uncharted territory, it carries its love and creates its own destiny with every step. A diamond is enthroned on its setting, framing the moon; **as beautiful and romantic as a fiancée...**

This is a collection of **diamond solitaires** for asking her hand in marriage, mounted on white gold as if upon a stream of moonlight.

Moreover, there are earrings and pendants created especially to come together on your **wedding day** in a pure and elegant manner, just as a full moon illuminates the heavens.
